## **NOTES TO THE FINANCIAL STATEMENTS**

### **FOR THE 12 MONTHS ENDED 31<sup>ST</sup> OCTOBER 2025**

#### **1. ACCOUNTING POLICIES**

Burgundy Skin & Beauty Limited is primarily engaged as a beauty salon. The company is a private limited liability company incorporated and domiciled in the republic of Ireland and is also tax resident in Ireland, company registration number is 632946. Its registered business address is 4 Birch Grove, Kill Avenue, Dun Laoghaire, Co Dublin.

These financial statements are prepared by Burgundy Skin & Beauty Limited in accordance with accounting standards issued by the Financial Reporting Council, including FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (“FRS 102”) as adapted by Section 1A of FRS 102 and the Companies Act 2014.

The significant accounting policies adopted by the Company and applied consistently in the preparation of these financial statements are set out below.

#### **2. BASIS OF ACCOUNTING**

The financial statements have been prepared on the going concern basis under the historical cost convention and are in accordance with financial reporting standards of the Accounting Standards Board. The Statutory financial statements have been prepared under the historical cost convention and comply with the accounting standards issued by the Financial Reporting Council, specifically Financial Reporting Standard 102 – 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102).

The financial statements are prepared in Euro which is the functional currency of the company.

#### **Government grants**

Government grants are recognised at their fair value in profit or loss where there is a reasonable assurance that the grant will be received and the Company has complied with all attached conditions. Capital Grants are initially recognised as deferred income on the balance sheet and credited to the profit and loss account by instalments on a basis consistent with the depreciation policy of the relevant asset, as adjusted for any impairment. Revenue Grants are credited to income so as to match them with the expenditure to which they relate. Government grants received are included in ‘other income’ in profit or loss.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **FOR THE 12 MONTHS ENDED 31<sup>ST</sup> OCTOBER 2025**

#### **Revenue Recognition**

Revenue is recognised to the extent that the company obtains the right to consideration in exchange for its performance. Revenue comprises the fair value of consideration received and receivable exclusive of value added tax and after discounts and rebates.

Revenue from the provision of services is recognised in the accounting period in which the services are rendered and the outcome of the contract can be estimated reliably. The company uses the percentage of completion method based on the actual service performed as a percentage of the total services to be provided.

#### **Taxation**

The company is managed and controlled in the Republic of Ireland and, consequently, is tax resident in Ireland. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

#### *Current tax*

Current tax is calculated on the profits of the period. Current tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date.

#### **Depreciation**

Depreciation is provided on Fixtures and equipment, on a straight-line basis, so as to write off their cost less residual amounts over their estimated useful economic lives.

The estimated useful economic lives assigned to fixtures and equipment are as follows:

Fixtures & Equipment	12.5%	straight line on cost
Improvements to Premises	20%	straight line method

The company's policy is to review the remaining useful economic lives and residual values of equipment on an on-going basis and to adjust the depreciation charge to reflect the remaining estimated useful economic life and residual value.

Fully depreciated fixtures & equipment are retained in the cost of fixtures & equipment and related accumulated depreciation until they are removed from service. In the case of disposals, assets and related depreciation are removed from the financial statements and the net amount, less proceeds from disposal, is charged or credited to the income statement

Impairment reviews are carried out where there are events or changes in circumstances that indicate that the carrying amount of the fixed asset or goodwill may not be recoverable. Where there is an impairment loss it is recognised in the profit and loss account (There is no policy of revaluing fixed assets).

## **BURGUNDY SKIN & BEAUTY LIMITED**

### **NOTES TO THE FINANCIAL STATEMENTS**

#### **FOR THE 12 MONTHS ENDED 31<sup>ST</sup> OCTOBER 2025**

##### **Stocks**

Stocks comprise consumable items and goods held for resale. Inventories are stated at the lower of cost and net realisable value. Cost is calculated on a first in, first out basis and includes invoice price, import duties and transportation costs. Net realisable value comprises the actual or estimated selling price less all further costs to completion or to be incurred in marketing, selling and distribution.

At the end of each reporting period inventories are assessed for impairment. If an item of stock is impaired, the identified inventory is reduced to its selling price less costs to complete and sell and an impairment charge is recognised in the profit and loss account. Where a reversal of the impairment is recognised the impairment charge is reversed, up to the original impairment loss, and is recognised as a credit in the profit and loss account.

##### **Trade and other debtors**

Trade and other debtors are recognised initially at transaction price (including transaction costs) unless a financing arrangement exists in which case they are measured at the present value of future receipts discounted at a market rate. Subsequently these are measured at amortised cost less any provision for impairment. A provision for impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. All movements in the level of the provision required are recognised in the profit and loss.

##### **Cash and cash equivalents**

Cash and cash equivalents include cash on hand, demand deposits and other short- term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown within borrowings in current liabilities on the Balance Sheet.

##### **Trade and other creditors**

Trade and other creditors are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

##### **Cash Flow Statement**

The company meets the size criteria for a small company set by Section 350 of the Companies Act, 2014 and therefore, in accordance with FRS 1: Cash Flow Statements, it has not prepared a cash flow statement.

### **NOTES TO THE FINANCIAL STATEMENTS**

#### **FOR THE 12 MONTHS ENDED 31<sup>ST</sup> OCTOBER 2025**

##### **Provisions**

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

##### **Contingencies**

Contingent liabilities, arising as a result of past events, are not recognised when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the company's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

Contingent assets are not recognised. Contingent assets are disclosed in the financial statements when an inflow of economic benefits is probable.

**BURGUNDY SKIN & BEAUTY LIMITED**

**NOTES TO THE FINANCIAL STATEMENTS**

**FOR THE 12 MONTHS ENDED 31<sup>ST</sup> OCTOBER 2025**

**Employee Benefits**

*Short term benefits*

Short term benefits, including holiday pay and other similar non-monetary benefits, are recognised as an expense in the period in which the service is received.

**Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.
