Data Opportunities Limited

Notes to the abridged financial statements for the period ended 31 December 2025

1. Statement of accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

1.1. Basis of preparation

The unaudited financial statements have been prepared in accordance with accounting standards generally accepted in Ireland and Irish statute comprising the Companies Act 2014, Accounting Standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those issued by the Accounting Standards Board and published by the Auditing Practices Board in the UK and Ireland.

The unaudited accounts are prepared under the historical cost convention modified to include the revaluation of certain fixed assets and financial instruments, and in accordance with applicable accounting standards.

1.2. Cash flow statement

The company meets the size criteria for a small company set by the Companies Act 2014 and therefore, in accordance with FRS1: Cash flow statements, it has not prepared a cash flow statement.

1.3. Turnover Policy

Turnover represents the total invoice value, excluding value added tax, of sales made during the period.

1.4. Tangible fixed assets and depreciation

Depreciation

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost less residual value, of each asset systematically over its expected useful life, as follows:

Office equipment	-12.5% Straight Line
Fixtures, fittings and equipment	-12.5% Straight Line

1.5. Pensions

The pension costs charged in the financial statements represent the contribution made by the company during the period.

The regular cost of providing retirement pensions and related benefits is charged to the profit and loss account over the employees' service lives on the basis of a constant percentage of earning.

1.6. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or receive more tax, with the following exceptions: Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where replacement assets are sold;

Data Opportunities Limited

Notes to the abridged financial statements for the period ended 31 December 2025 (continued)

Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
