### **Director's responsibilities statement**

These abridged financial statements have been extracted, pursuant to section 353 of the Companies Act 2014, from the statutory financial statements prepared under section 290 of that Act. The following is the Director's Responsibilities Statement accompanying those financial statements.

Company law requires the director to prepare financial statements for each financial year. Under that law, he has elected to prepare the financial statements in accordance with FRS 105 The Financial Reporting Standard applicable to the Micro-entities Regime (FRS 105).

As such the director is responsible for preparing financial statements in accordance with the provisions of the Companies Act 2014 with which the company is obliged to comply, including the appropriate use of the going concern basis of accounting, which is consistent with those requirements, and having availed of the exemptions to which the company is entitled by virtue of qualifying for the micro companies regime and FRS 105. Thereby, the financial statements are presumed, in law, to give a true and fair view without any consideration of any other circumstances, factors, accounting principles or disclosures.

The director is responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the company and enable him to ensure that the financial statements comply with the Companies Act 2014. He has general responsibility for taking such steps as are reasonably open to him to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

**Burren JW Ltd**

**Balance sheet  
As at 31 December 2025**

	2025		2024
	€	€	€
Fixed assets		13,018	14,757
Current assets	374,992		309,616
Prepayments and accrued income	645		645
		375,637	310,261
Creditors: amounts falling due within one year		(51,849)	(45,658)
<b>Net current assets</b>		323,788	264,603
<b>Total assets less current liabilities</b>		336,806	279,360
Accruals and deferred income		(1,863)	(14,903)
<b>Net assets</b>		334,943	264,457
<b>Capital and reserves</b>		334,943	264,457

I, as director of Burren JW Ltd state that:

- (a) the company is availing itself of the exemption provided for by Chapter 15 of Part 6 of the Companies Act 2014;
- (b) the company is availing itself of the exemption on the grounds that the conditions specified in section 358 of the Companies Act 2014 are satisfied;
- (c) the shareholder of the company have not served a notice on the company under section 334(1) of the Companies Act 2014 in accordance with section 334(2);
- (d) I acknowledge the company's obligations under the Companies Act 2014, to keep adequate accounting records and prepare financial statements which give a true and fair view of the assets, liabilities and financial position of the company at the end of its financial year and of its profit or loss for such a financial year and to otherwise comply with the provisions of Companies Act 2014 relating to financial statements so far as they are applicable to the company; and
- (e) the company has relied on the specified exemption contained in section 352 of the Companies Act 2014; has done so on the grounds that the company is entitled to the benefit of that exemption as a micro company and the abridged financial statements have been properly prepared in accordance with section 353 of the Companies Act 2014.

The financial statements have been prepared in accordance with the micro companies regime.

**Burren JW Ltd**

**Balance sheet (continued)  
As at 31 December 2025**

These abridged financial statements were approved by the director of the company on 19 March 2026 and signed by:

## **Burren JW Ltd**

### **Notes to the abridged financial statements Financial year ended 31 December 2025**

#### **1. General information**

The company is a private company limited by shares, registered in Ireland. The address of the registered office is Accountancy House, Ballybeg, Rathnew, Co. Wicklow, A67E031.

#### **2. Statement of compliance**

These financial statements have been prepared in accordance with FRS 105, 'The Financial Reporting Standard applicable to the Micro-entities Regime'.

#### **3. Accounting policies and measurement bases**

##### **Basis of preparation**

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in Euro, which is the functional currency of the entity.

##### **Going concern**

The financial statements have been prepared on a going concern basis.

##### **Turnover**

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer, usually on despatch of the goods; the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

##### **Taxation**

Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Tax is recognised on taxable profit for the current and past periods. Tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

##### **Foreign currencies**

Foreign currency transactions are initially recorded in the functional currency, by applying the spot exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the reporting date, with any gains or losses being taken to profit or loss.

##### **Tangible assets**

Tangible assets are measured initially at cost, and are subsequently stated at cost less accumulated depreciation and impairment losses.

## Burren JW Ltd

### Notes to the abridged financial statements (continued) Financial year ended 31 December 2025

#### Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Fittings fixtures and equipment	- 12.50% straight line
Computer and Software	- 12.50% straight line

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

#### Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

#### Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

#### Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Financial instruments are initially recognised at cost, which is the transaction price.

Investments in shares, subsidiaries or participating interests are subsequently measured at cost less impairment.

Derivatives are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss less any impairment losses recognised to date. This is allocated to profit or loss over the term of the contract on a straight-line basis, unless another systematic basis of allocation is more appropriate.

Other financial instruments are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss, plus accumulated interest income or expense recognised to date, less all repayments of principal or interest to date, less impairment.

Financial assets are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

Any reversals of impairment are recognised in profit or loss immediately.

## **Burren JW Ltd**

### **Notes to the abridged financial statements (continued) Financial year ended 31 December 2025**

#### **Defined contribution plans**

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised in finance costs in profit or loss in the period in which it arises.

#### **Trade and other debtors**

Trade and other debtors including amounts owed from group companies are recognised initially at transaction price (including transaction costs). For trade debtors where the payment is beyond normal credit terms it is held at the present value of all future payments using the imputed rate of interest or the cash price for the goods or services where material. Where loans are advanced it is carried at the transaction price (including transaction costs where material) regardless of whether a financing arrangement exists. Subsequently all trade and other debtors are measured at transaction price plus transaction costs not yet recognised, plus any unwinding of the discount on transactions initially recognised at present value/cash value, less repayments, plus advances and less any provision for impairment. Transaction costs including any amounts deferred on sales where receipt is deferred beyond normal credit terms are released to the profit and loss on a straight line basis over the length of the contract. A provision for impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the estimated future cash flows. All movements in the level of the provision required are recognised in the profit and loss.

#### **Cash at bank and on hand**

Cash and at bank and on hand include cash on hand, demand deposits and other term highly liquid investments regardless of maturity. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

#### **Creditors and accruals**

Creditors and accruals are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Creditors and accruals including amounts owed to group companies are recognised initially at transaction price (including transaction costs). For trade creditors where the payment is beyond normal credit terms it is held at the present value of all future payments using the imputed rate of interest or the cash price for the goods or services where material. Where loans are advanced it is carried at the transaction price (including transactions cost where material) regardless of whether a financing arrangement exists. Subsequently these are measured at transaction price less transaction costs not yet recognised, plus any unwinding of the discount on transactions initially recognised at present value/cash value, less repayments, plus advances. Transaction costs including any amounts deferred on purchases where payment is deferred beyond normal credit terms are released to the profit and loss on a straight line basis over the length of the contract.

#### **Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.
