The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 105 "The Financial Reporting Standard applicable to the Micro-Entities Regime" issued by the Financial Reporting Council.

Turnover

Turnover comprises the invoice value of goods & services supplied by the company, exclusive of trade discounts and value added tax.

Stocks

Stocks are valued at the lower of cost and net realisable value. Stocks are determined on a first-in first-out basis. Cost comprises expenditure incurred in the normal course of business in bringing stocks to their present location and condition. Full provision is made for obsolete and slow moving items. Net realisable value comprises actual or estimated selling price (net of trade discounts) less all further costs to completion or to be incurred in marketing and selling.

Trade and other debtors

Trade and other debtors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method less impairment losses for bad and doubtful debts except where the effect of discounting would be immaterial. In such cases the receivables are stated at cost less impairment losses for bad and doubtful debts.

Trade and other creditors

Trade and other creditors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest rate method, unless the effect of discounting would be immaterial, in which case they are stated at cost.

5. Going Concern

At 28th February 2025 company had accumulated losses of €30,390 and at that date current liabilities exceed current assets by €30,290. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements have been prepared on a going concern basis, the validity of which depends upon the company trading profitability in the future. The directors will provide financial support to allow the company to meet its financial obligation as they fall due.

On the basis of the foregoing the directors believe that it is appropriate for the financial statements to be prepared on the going concern basis. However the financial statements do not include any adjustments that would result from a failure to achieve the projected financial profits.

6. Approval of financial statements

The financial statements were approved and authorised for issue by the board of directors on 20 January 2026.
