1. GENERAL INFORMATION

The unaudited financial statements comprising the Profit and Loss Account, the Balance Sheet and the related notes constitute the individual unaudited financial statements of Cloghan Farm Limited for the financial year ended 30 April 2025.

Cloghan Farm Limited is a private company limited by shares (registered under Part 2 of Companies Act 2014), incorporated and registered in the Republic of Ireland (CRO number 667185). The Registered Office is Cloghan, Ardcaith, Garristown, Co. Meath which is also the principal place of business of the company.

Currency

The unaudited financial statements have been presented in Euro (€) which is also the functional currency of the company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's unaudited financial statements.

Basis of preparation

The unaudited financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 105 "The Financial Reporting Standard applicable to the Micro-Entities Regime" issued by the Financial Reporting Council.

The company qualifies as a micro company as defined by section 280D of the Companies Act 2014 in respect of the financial year, and has applied the rules of the 'Micro Companies Regime' in accordance with section 280E of the Companies Act 2014 and FRS 105.

Turnover

Turnover represents the net proceeds of sale after deduction of all commissions, fees and other charges payable to livestock marts, factories and other purchasers.

Turnover on sale of goods is recognised when the company has transferred the significant risks and rewards of ownership of the goods, which usually takes place when the goods are physically delivered to the buyer.

Tangible fixed assets and depreciation

All tangible fixed assets are initially recorded at historic cost. This includes legal fees, stamp duty and other non-refundable purchase taxes, and also any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, which can include the costs of site preparation, initial delivery and handling, installation and assembly, and testing of functionality.

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset systematically over its expected useful life, on a straight-line basis, as follows:

Long leasehold property	-	10% Straight line
Plant and machinery	-	15% Straight line
Fixtures, fittings and equipment	-	15% Straight line
Motor vehicles	-	20% Straight line

Where factors indicate that the residual values or useful lives of tangible fixed assets may have changed, a review will be carried out of the residual values, depreciation methods and useful lives, and these will be amended if necessary. Changes in depreciation rates arising from this review are accounted for prospectively over the remaining useful lives of the assets.

Stocks

Stocks are valued at the lower of cost and net realisable value. Where appropriate cost is arrived at as follows:

100% of the market value of cattle bred on the farm or purchased as immature stock.

Net realisable value comprises actual or estimated selling price (net of trade discounts) less all further costs to completion or to be incurred in marketing and selling.
