### Notes to the abridged financial statements for the year ended 30 September 2025

#### 1. Statement of accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

##### 1.1. Basis of preparation

The accounts are prepared in accordance with generally accepted accounting principles under the historical cost convention, and comply with financial reporting standards of the Accounting Standards Board.

##### 1.2. Cash flow statement

The company meets the size criteria for a small company set by the Companies Act 2014 and therefore, in accordance with FRS1: Cash flow statements, it has not prepared a cash flow statement.

##### 1.3. Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

##### 1.4. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

##### 1.5. Turnover Policy

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.
