NOTES TO THE UNAUDITED ABRIDGED FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024

1. GENERAL INFORMATION

The unaudited financial statements comprising the Profit and Loss Account, the Balance Sheet and the related notes constitute the individual unaudited financial statements of Baldara Sand and Gravel Limited for the financial year ended 30 April 2024.

Baldara Sand and Gravel Limited is a private company limited by shares (registered under Part 2 of Companies Act 2014), incorporated and registered in the Republic of Ireland (CRO number 509405). The registered office is Baldara, Naul, Co Dublin, which is also the principal place of business of the company.

Currency

The unaudited financial statements have been presented in the Euro currency (€) which is also the functional currency of the company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's unaudited financial statements.

Basis of preparation

The unaudited financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 105 "The Financial Reporting Standard applicable to the Micro-Entities Regime" issued by the Financial Reporting Council.

The company qualifies as a micro company as defined by section 280D of the Companies Act 2014 in respect of the financial year, and has applied the rules of the 'Micro Companies Regime' in accordance with section 280E of the Companies Act 2014 and FRS 105.

Turnover

Turnover comprises the invoice value of goods and services supplied by the company, exclusive of trade discounts and value added tax.

Turnover on sale of goods is recognised when the company has transferred the significant risks and rewards of ownership in the goods, which usually takes place when the goods are physically delivered to the buyer.

Turnover on supply of services is recognised by reference to the stage of completion of the service at the end of the financial year. The stage of completion is determined primarily on the basis of timing costs applied to individual service assignments.

Deposits received from customers in advance of completion of sales of goods or in advance of the stage of completion of services at the end of the financial year are not recognised as income and are included in creditors.

Tangible fixed assets and depreciation

All tangible fixed assets are initially recorded at historic cost. This includes legal fees, stamp duty and other non-refundable purchase taxes, and also any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, which can include the costs of site preparation, initial delivery and handling, installation and assembly, and testing of functionality.

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset systematically over its expected useful life, on a straight-line basis, as follows:

Plant and machinery	- 15% Straight line
Motor vehicles	- 20% Straight line

Where factors indicate that the residual values or useful lives of tangible fixed assets may have changed, a review will be carried out of the residual values, depreciation methods and useful lives, and these will be amended if necessary. Changes in depreciation rates arising from this review are accounted for prospectively over the remaining useful lives of the assets.

Operating lease rentals are charged to the profit and loss account on a straight-line basis over the lease term.
