The financial statements are prepared under the historical cost convention.

Turnover

Sales are stated at the value of goods supplied at invoice price exclusive of VAT.

Tangible assets and depreciation

Tangible assets are stated at cost or at valuation, less accumulated depreciation. The charge to depreciation is calculated to write off the original cost or valuation of tangible assets, less their estimated residual value, over their expected useful lives as follows:

Plant and machinery	- 15% Straight Line
Fixtures, fittings and equipment	- 15% Straight Line
Motor vehicles	- 20% Straight Line

Borrowing costs

Borrowing costs relating to the acquisition of assets are capitalised at the appropriate rate by adding them to the cost of assets being acquired. Investment income earned on the temporary investment of specific borrowings pending their expenditure on the assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Trade and other creditors

Trade and other creditors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest rate method, unless the effect of discounting would be immaterial, in which case they are stated at cost.
