STATEMENT OF DIRECTORS' RESPONSIBILITIES

Company law requires the Directors to prepare financial statements for each financial period which gives a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to material departures disclosed and explained in the financial statements;
- prepare the financial statements based on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Acts 1963 to 2014. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**NOTES TO THE ABRIDGED FINANCIAL STATEMENTS
AS AT 30 JUNE 2025**

1 BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements have been prepared on a going concern basis. This assumes that the Company will continue in operational existence for the foreseeable future.

2 SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been consistently applied in dealing with items which are considered material in relation to the Company's financial statements.

(a) Stocks

Stocks are stated at the lower of cost and net realisable value. Cost is determined on a first-in-first-out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the selling expenses.

(b) Revenue recognition

Sales are recognised upon delivery of products and customer acceptance, if any, net of value added taxes and discounts.

(c) Taxation

Current tax, including Irish corporation tax and foreign taxes, is provided on the Company's taxable profits, at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

(d) Deferred taxation

The tax expense is determined on the basis of tax effect accounting using the liability method. Deferred taxation is recognised for timing differences except when there is reasonable evidence that such timing differences will not reverse in the foreseeable future. The tax effect of timing differences that result in a debit balance or a debit to the deferred tax balance is not carried forward unless there is a reasonable expectation of its realisation.
