The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Statement of compliance

The financial statements of the company for the year ended 31 May 2025 have been prepared in accordance with the provisions of FRS 102 Section 1A (Small Entities) and the Companies Act 2014.

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention except for certain financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets. The company qualifies as a small company as defined by section 280A of the Companies Act 2014 in respect of the financial year, and has applied the rules of the 'Small Companies Regime' in accordance with section 280C of the Companies Act 2014 and Section 1A of FRS 102.

Trade and other debtors are initially recognised at transaction price and thereafter stated at amortised cost using the effective interest method less impairment losses for bad and doubtful debts except where the effect of discounting would be immaterial. NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

for the financial year ended 31 May 2025

Sinking Fund Contributions

In accordance with Section 19 of the Multi-Unit Developments Act 2011, the company must establish a sinking fund to fund non-routine maintenance and other non-routine costs that may arise from time to time. The Sinking Fund is not guaranteed to cover all unexpected costs of a non-recurring nature. These funds are held in a separate designated bank account and are allocated to a special reserve titled "sinking fund reserve". The company has set up a separate designated bank account, and contributions have been made to same. Further transfers may be made to the sinking fund from liquid resources in each financial period.

3. Significant accounting judgements and key sources of estimation uncertainty

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

Judgements and estimates are continually evaluated and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounts estimates will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year.

4. Going concern

The financial statements have been prepared on a going concern basis.

The total service charge debtors outstanding at the financial year end is €75,543, compared to €119,690 at the previous financial year end.

In the short to medium term these uncollected service charge debtors may lead to a shortage of cash for the company. The nature of property management companies is such that any such shortfall will have to be met by other members of the company or by a reduction in future expenditure which may adversely affect services.

The directors express their willingness to explore all options open to them to recover outstanding service charges and hope that all members can be persuaded to meet their obligations for the benefit of the overall development.

Owners' leases state that a lessee/owner cannot assign the lease (i.e. sell their property) without first causing the purchaser to become a member of the management company. The management company and its legal representatives can refuse to allow this assignment unless all service charges due to it are discharged in full.

5. Critical Accounting Judgements and Estimates

The directors consider the accounting estimates and assumptions below to be its critical accounting judgements and estimates:

Impairment of Service Charge Arrears

The obligation to pay service charges is one that each owner is legally bound to under their lease with the Management Company. The debt for the property is linked to the unit and this is never written off and all outstanding debts will be collected from owners in the long term. Debts may mount up on properties but these are always recoverable when it comes to a sale of a property as no new owner will purchase a property unless the title is clean and the management company cannot transfer effective joint title for the common areas to the new owner unless all outstanding service charges are paid. On this basis, no provision for impairment of service charges arrears is normally made.

However, a provision for doubtful debts has been made in recognition of long-term service charge arrears relating to three units. While there is a judgement mortgage in place and all legal avenues are being pursued, the Board recognises that there will be considerable difficulties and legal costs involved in some of the options for collecting the debt.

6. Common areas and location

The common areas in the development have been transferred to the company.
