#### Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. Plant and machinery	-	15% Straight line
Fixtures, fittings and equipment	-	12.5% Straight line
Motor vehicles	-	20% Straight line

The carrying values of tangible fixed assets are reviewed annually for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

Current tax represents the amount expected to be paid or recovered in respect of taxable profits for the financial year and is calculated using the tax rates and laws that have been enacted or substantially enacted at the Balance Sheet date.
