Accounting Policies

1. The significant accounting policies adopted by the Company are as follows:

Basis of Preparation

The financial statements have been prepared under the historical cost convention and comply with the accounting standards issued by the Financial Reporting Council, as promulgated by The Institute of Certified Public Accountants in Ireland.

Cash Flow Statement

The company meets the size criteria for a small company set by the Companies (Amendment) Act 1986 and, therefore, in accordance with FRS 1: Cash Flow Statements, it has not prepared a cash flow statement.

Tangible Fixed Assets

Tangible fixed assets are stated at cost less accumulated depreciation. Depreciation is calculated in order to write off the cost of tangible fixed assets over their estimated useful lives as follows:

Plant and Equipment	15%	on cost
Motor Vehicles	20%	on cost
Buildings	4%	on cost

Impairment reviews are carried out where there are events or changes in circumstances that indicate that the carrying amount of the fixed asset or goodwill may not be recoverable. Where there is an impairment loss it is recognised in the profit and loss account. There is no policy of revaluing fixed assets.

Leased Assets

Tangible fixed Assets acquired under finance leases are included in the balance sheet at their equivalent capital value and are depreciated over the shorter of the lease term and their useful lives. The corresponding liabilities are recorded as a creditor and the interest element of the finance lease rentals is charged to the profit and loss account on an annuity basis. Operating lease rentals are charged to the profit and loss account on a straight line basis over the lease term.

Accounting Policies

Taxation

The Charge for taxation is based on the profit for the year. Deferred taxation is calculated on the differences between the company's taxable profits and the results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. The full deferred tax effect is recognised on differences between amounts funded and amounts charged to the profit and loss in relation to pensions and other post retirement benefits. Discounting is used in calculating deferred tax.

Pensions

There is no Company pension scheme in existence.

Turnover

Turnover represents net sales to customers and excludes value added tax.
