exceed assets by €90,553 as at that date (2024: €80,308). This indicates the existence of circumstances which may cast significant doubt on the ability of the company to continue in operation as a going concern.

The company is reliant on the continuing financial support of its directors to enable it to settle its debts as they fall due. The company has received no indication that this support will not be available for the foreseeable future.

For the above reason, the directors believe that the company has sufficient resources to continue in operational existence for the foreseeable future and that it is therefore appropriate to continue to prepare the Financial Statements on a going concern basis.
